**THE FRAMEWORK PROGRAMME
International Forum
"Chornobyl's Legacy
for the Nuclear Safety of the World"**

April 20, 2016	
	Arrival of the Forum participants
April 21, 2016	
9 ⁰⁰	Departure to Pripyat and Chornobyl cities, acquaintance with the works in progress at Chornobyl NPP platform (construction of the confinement)
April 22, 2016	
9 ⁰⁰ –10 ⁰⁰	Participants registration, Mass media registration
10 ⁰⁰ –11 ⁰⁰	Opening of the Forum
11 ⁰ –11 ³⁰	Conference Photo, interview to mass media
11 ³⁰ –12 ³⁰	First plenary session "CHORNOBYL AND NEW STRATEGY OF THE WORLD NUCLEAR SAFETY"
12 ³⁰ –13 ³⁰	Second plenary session "CHORNOBYL'S LEGACY FOR HUMANITY: TECHNOLOGICAL, HUMANITARIAN AND INTERNATIONAL ASPECTS"
13 ³⁰ –14 ³⁰	Break
14 ³⁰ –15 ³⁰	Third plenary session "TASKS OF FINAL RESOLUTION OF STILL UNRESOLVED PROBLEMS OF DESTROYED CHORNOBYL'S UNIT №4".
15 ³⁰ –16 ¹⁵	Fourth plenary session. CONCLUSION REMARKS, THE AWARD OF STUDENTS WORKS WINNERS DEDICATED TO THE 30-TH ANNIVERSARY AFTER CHORNOBYL ACCIDENT, ADOPTION OF THE FORUM RECOMMENDATIONS, Closing ceremony.
April 23, 2016	
10 ⁰⁰	Additional bilateral and multilateral meetings, talks. Culture Programme, Kyiv city guided tours. Departure of the Forum participants.

Side events:

1) April 18-19, 2016 –
under Programme of the National Academy of Medical Science of Ukraine – International Conference "Health Effects of the Chornobyl Accident – Thirty Years Aftermath" <http://nrcrm.gov.ua/>;

2) January-April 2016 –
Student Art Competition
"30 Years After Chornobyl";

3) April 2016 –
Students' Conference, Slavutych city,

4) other events

Ministry of Ecology and Natural Resources of Ukraine

Ministry of Foreign Affairs of Ukraine

National Technical University of Ukraine
"Kyiv Polytechnic Institute"

National Academy of Science of Ukraine

SSE "Chornobyl NPP"

State Agency of Ukraine on Exclusion Zone Management

Ukrainian Peace Council

International UNESCO Chair "High Education, Applied System Analysis, and Informatics"

**International Forum
"Chornobyl's Legacy for the Nuclear Safety
of the World"**

On April 26, 2016 it will be the 30th anniversary since the world community has known the name of Chornobyl, which became the synonym for a terrible technological disaster and tremendous ecological catastrophe on the global scale.

Those were difficult years of heroic exploits of a large number of people. The consequences of one of the largest technological disasters could realize the whole world that is why its 30th anniversary cannot be ignored.

Nowadays the Chornobyl Nuclear Power Plant does not work; the storehouse for nuclear waste is under construction. There is an active work on the building of a new safe confinement which will reliably isolate the destroyed power generating unit from surrounding environment. There is no doubt that in 2017 a new safe confinement will be constructed.

All these projects became feasible due to significant financial and technical support of the world community.

The next and the final stage of overcoming the consequences of Chornobyl disaster should be the development of infrastructure for processing of unstable structures and their dismantling, removal of fuel-containing materials from the "Shelter" Object and their safe burial. Considering that operational functionality of the "Shelter" Object is coming to the end in 2023 and taking into account its current condition, the work should be started without delay. Unfortunately, today Ukraine is unable to solve these problems self-reliantly.

In 2016, it is planned to organize the International Forum "Chornobyl's Legacy for the Nuclear Safety of the World" in Ukraine involving wide circles of scientists, politicians and public representatives.

As the Forum coincides with on the date of the 30th anniversary of Chornobyl disaster, its including to the program of the issues of strengthening the nuclear safety in Ukraine and in the world and overcoming the consequences of the disaster will create the conditions for more active involvement of the world community in the process of solving the problems which are still not solved.

The Forum will provide an impetus for starting the discussion of a new phase of international cooperation, aimed at joint realization of activities on turning the "Shelter" Object into ecologically safe system.

Honorary co-chairmen of the Forum:

Leonid Kravchuk – President of Ukraine
1991-1994,
Leonid Kuchma – President of Ukraine
1994-2005.

**Chairman of the Forum Program (Scientific)
Committee:**

Borys Paton – President of NAS of Ukraine

**Co-chairmen of the Forum
Scientific and Organizing Committee:**

Mykhailo Zgurovsky – Rector of NTUU "KPI"
Igor Gramotkin – General Director of
SSE "Chornobyl NPP"

To participate in the Forum are invited:

representatives of governmental bodies of Ukraine,
international organizations, diplomatic corps, accredited in
Ukraine,
scientists, teachers, students, mass media

Working languages:

Ukrainian, English (simultaneous translation)

Registration of participants:

to participate in the Forum it is necessary to be registered
preliminary.

Online registration of participants:
http://icd.kpi.ua/?page_id=1654

Application forms to participate the Forum are also accepted
Application form is applied
