One of the most important parts of our work is international relationships with other universities all over the world. We have to work hard and do our best to give our students an opportunity to practice their language skills and use their knowledge for their future. We have a special International department, who do a lot of useful things in this sphere. We try to communicate with universities outside Ukraine and to organize different projects together, exchange experience, to learn cultures of other countries.
We will not stop!

We will make life of every student the best!

Our Students’ Council works for our students, we want to make students’ lives the most exciting and interesting!
