- ✓ National Technical University «Kharkiv Polytechnic Institute»
- ✓ V. N. Karazin Kharkiv National University
- ✓ O.M.Beketov National University of Urban Economy in Kharkiv
- ✓ National Technical University of Ukraine “Igor Sikorsky Kyiv Polytechnic Institute”
- ✓ National Pedagogical Drahomanov University
- ✓ Taras Shevchenko National University of Kyiv

## FUNDING

~ 1 mln PLN  
(~ 200 thous. euro)

## ACTIVITIES

- micromodules / challenges
  - summer school
  - 3 x conferences
- 3 x trainings for academic staff
  - promotion & guidance

## DURATION

12 months

January 1st 2023 – December 31st, 2023

## PURPOSE

involvement of Ukrainian partners in the activities of ECIU through the implementation of activities supporting academic cooperation and exchange

# Task 1: providing access to micromodules/challenges

Participation of 20 Ukrainian students in micro-modules (number of micro-modules depends on students' interests)

TUL offers them virtual mobility status - so they could have student accounts on our platform and if there is agreement from the ECIU members we will provide them with the ECIU micromodule platform)

The project provides for the purchase of equipment, which allows Learners from Ukrainian universities to participate in micromodules and challenges conducted online. This will ensure the continuity of the universities' functioning in the international environment under conditions of warfare and a quicker return to normal life after the war ends.

## Actions

Participation of 20 Ukrainian students in micro-modules / Purchasing the equipment for 10 Ukrainian universities, its transportation to Ukraine and installation, supporting activities

## Task 2: participation in summer school

Students from Ukrainian universities will have the opportunity to participate in the summer school. By this possibility students will increase their competence and deepen their knowledge in various areas, while gaining additional qualifications.

TUL will organize the school, however, we would like to agree with ECIU members on its main topic so that it is close to ECIU's identity.

The project supposes that 1 representative per partner Ukrainian University will take part in the summer school (up to 10 day-long) at one of the ECIU partner universities. The accommodation and transport are covered by the project.

Action
Accommodation/food
Transport

## Task 3: taking part in conferences

Employees of Ukrainian universities (1 per each partner, that has declared its willingness and readiness to cooperate) will be invited to conferences. By this, they would be able to increase the competence of Ukrainian university staff in implementing and disseminating the research potential as well as establish new scientific collaborations.

The project covers the accommodation and transport for 10 participants from Ukrainian universities (1 per partner) in 3 different conferences (up to 3 day-long).

Action
Accommodation/food
Transport

# Task 4: sharing innovative T&L experience while training

The project supposes the participation of 10 representatives of Ukrainian universities in trainings aimed at transferring knowledge on modern T&L methods (e.g. challenge-based learning) and innovative forms of education (microcredentials), which will contribute to raising the competence of the staff and students of Ukrainian universities in the implementation and dissemination of innovative educational solutions and teaching offerings. Three trainings are planned.

Action
<u>EUROPEAN HIGHER EDUCATION TRENDS AND POLICIES</u> <ul style="list-style-type: none"><li>• training preparation</li><li>• accommodation</li><li>• transport</li></ul>
<u>T&amp;L</u> <ul style="list-style-type: none"><li>• training preparation</li><li>• accommodation</li><li>• transport</li></ul>
<u>Microcredentials</u> <ul style="list-style-type: none"><li>• training preparation</li><li>• accommodation</li><li>• transport</li></ul>

## Task 5: promotion of ECIU and EU initiative

An efficient and focused promotion has been planned to raise the awareness of the Ukrainian academic community about contemporary trends in higher education in Europe (including the European Universities initiative). Special series of promotional films, and promotional materials will be created for this purpose, which will allow a faster return to the normal mode of internationalization after the end of the war.

The project supposes the creation of 15 videos for different groups of recipients (learners, scientists, etc.) telling more about the EU initiative and ECIU. Moreover, the leaflets and guidance materials will be prepared.

Action
A series of videos on what is European University initiative, why ECIU, profits on joining the alliances
Leaflets and guidance materials
