

EURIZON WP9 FELLOWSHIP: Remote research grants for researchers from Ukraine

ACTION: provide **temporary fellowships**, with the duration of **6 or 12 months**, consisting in individual research grants to teams of **vulnerable researchers, working remotely from Ukraine**, on research projects conducted in **collaboration with partners from European RIs** (in all scientific domains). **BUDGET:** ~ 1.4 Mio €

TARGET APPLICANTS: teams of **Ukrainian researchers and RI relevant staff (2-5 Members)** led by one experienced researcher (Principal Investigator).

EUROPEAN PARTNERS: will support remotely UA teams on research topics of common interest from all scientific domains.

Expected outcome: provide temporary support to vulnerable researchers in Ukraine + if possible, initiate structured and long-term EU-UA scientific and technical collaborations and joint publications.

The EURIZON fellowship will provide support only to the Ukrainian teams (no support is foreseen for the European partners).
